

itelligence: Special Expertise Partner of SAP

itelligence appointed SAP Special Expertise Partner Product Life-Cycle Management

Bielefeld, July 22, 2004 – Walldorf-based SAP Deutschland GmbH & Co. KG has appointed itelligence AG, Bielefeld, “Special Expertise Partner mySAP Product Life-Cycle Management” (PLM). The appointment comes in recognition of itelligence’s comprehensive mySAP PLM product and process know-how for the manufacturing, high-tech and automotive industries.

itelligence's admission to the select group of SAP Special Expertise Partners is primarily owed to the successful implementation of mySAP PLM at customers such as DEUTZ AG, SIEGENIA-AUBI, IVM Automotive and Axima Refrigeration. The new partner status means that SAP will recommend itelligence AG as a particularly qualified partner for PLM customer projects.

Says Dr. Hans-Joachim Langen, Head of Product Life-Cycle Management at itelligence AG: “Our appointment as Special Expertise Partner confirms SAP’s confidence in our expertise as the leading consulting firm for mySAP PLM in Germany. We have successfully proven our special know-how of document management, CAD integration, variant configuration, project system and modification services in several customer projects.”

itelligence AG is among the SAP Partners with the largest number of qualifications and Special Expertise Partnerships in the SAP environment. These include the Special Expertise Partnership Exchange Infrastructure awarded in July 2004. Back in 2003, itelligence was already appointed Special Expertise Partner SAP Enterprise Portal and mySAP™ Supplier Relationship Management (mySAP™ SRM) as well as SAP Global Services Partner.

itelligence AG – Press release:

itelligence: Special Expertise Partner of SAP

itelligence appointed SAP Special Expertise Partner Product Life-Cycle Management

About mySAP Product Life-Cycle Management

The results of product development activities are an integral part of a company's capital. Product data and production processes therefore demand professional management - for new product series as well as for improvements and necessary changes in the product life cycle. The functions of mySAP Product Lifecycle Management provide optimal support during the development of products. This is true for crossover cooperation with partners, customers and suppliers as well as for the development processes within a company itself.

About itelligence AG:

itelligence AG is a leading international full-service provider for SAP employing some 1,000 highly qualified employees in 15 countries and in 4 regions (America, Western Europe, Germany/Austria, Western Europe). As a mySAP Business, Service and Support Alliance as well as Hosting Partner and Global Services Partner, itelligence realizes complex projects in the SAP environment for over 1,200 customers worldwide. The company's services range from SAP consulting and licensing to outsourcing and services to proprietary industry-specific SAP solutions. In 2003, itelligence AG generated total sales of EUR 145,6 million.
