itelligence Business Solutions

What we do and how we do **it**

Keep it simple and successful

The development of tailor-made IT solutions based on SAP software hinges primarily on one thing: our employees. With a team of more than 1,200 IT and industry specialists worldwide we consider ourselves an „enabler“ furthermore we develop efficient processes and innovative solutions for more than 2,500 customers, who range from medium-sized enterprises to multinational concerns. Complex problems and demands do not always require complicated solutions: Keep it simple is our challenge! Therefore we provide individual solutions that customers find transparent and which offer sustained added value, putting them in the position to perform at peak level.

The result: Lots of Special Expertise Partnerships in a wide spectrum of industries are as much proof as the fact that we were presented the Pinnacle Award in the discipline of customer satisfaction in series. We were appointed SAP Global Service Partner – a status that has been awarded only to a small number of global IT service providers. We are particularly proud of this honor.

SAP Service beyond boundaries

International Diversity

Nevertheless, the one thing that makes us truly successful is our international staffing network. The intensive and structured sharing of knowledge between our employees across cultural, professional and geographic boundaries creates a strong team founded on individual strengths that is innovative and unique.

For us, international diversity is a value and a factor that drives our success in more than 15 countries and 4 regions throughout the world. This applies in particular also to the international project work performed by our colleagues throughout our facilities all over the world.

Germany/Austria: Bautzen, Berlin, Bielefeld, Cologne, Dortmund, Frankfurt, Hamburg, Munich, Stuttgart, Vienna, Walldorf

Western Europe: Barcelona, Berne, Best, Brussels, Madrid, Reading, Zurich

Eastern Europe: Bratislava, Budapest, Katowice, Kiev, Ljubljana, Moscow, Poznan, Prague, Warsaw

USA: Chicago (IL), Cincinnati (OH)

»Sense of responsibility and commitment of our employees create the company's success.«

Organizational culture

Positive Attitude

At our enterprise, having a positive attitude is more than a catch phrase. The blend of team spirit, diversity, performance orientation and professional commitment inherent in our staff members, as well as the mutual respect we have for each other, creates a one-of-a-kind work environment. Our flat hierarchies and the unique corporate culture are also evident to our customers.

They give our employees immense room for maneuver and foster the early assumption of responsibilities. Everyone, spanning from junior professional to director intuitively knows how important his/her contributions are for the success of itelligence. Positive attitude attracts! Inside and outside of the company.

Whom we consider a good candidate

Consulting with heart

Given its complexity, the SAP environment calls for broad expert knowledge and requires consistent continuing education. However, what makes us SAP's most successful international partner in relation to medium-sized companies is much more than that: it is the motivation and the passion to develop excellent solutions in close contact with the customer and in direct person-to-person interactions.

That is why we are on the look-out for consultants and developers whose heart beats faster when they are involved in interesting project work – both domestically and internationally.

Our project business in Belgium with medium sized companies in the vast discipline of Logistics & Trade offers exciting career opportunities in SAP consulting and sales for SAP consultants:

■ **Junior Professionals** ■ **Professionals** ■ **Senior Professionals**

Employees' quotes

Challenge yourself

Challenge yourself! We want you to remain curious and ready to deliver outstanding performances. The motivation to present excellent solutions again and again and to take the road less traveled every now and then; these are indispensable characteristics if you want to be innovative and successful. We are looking for foresighted people and will support the personal and technical development of each employee with tailor-made qualification programs.

»We keep it simple! Open door policy is true at itelligence.«

Maike, Professional Corporate Function HR from Bielefeld

We are aware of the fact that the delivery of sustained superior performance hinges on having a stable private foundation. Consequently, we base our success not only on the individual solutions we develop for our customers, but also on those that we offer our employees. Our wide range of career models is therefore coordinated with the current individual life styles and personal circumstances of our staff members.

»I really enjoy my work environment. Everyone is very knowledgeable, helpful and has a positive attitude.«

Juan, Senior Professional Development from Barcelona

»My first international implementation project was a great experience and challenge.«

Maarten, Junior Professional SAP Consulting from Brussels

»With developing relationships that foster trust and communication we are able to improve our customer's business processes.«

Sadi, Junior Professional SAP Consulting from Cincinnati

»I have a lot of friends in this company. That creates teamwork for great solutions.«

Steve, Senior Professional SAP Consulting from Chicago
