

**Midmarket customer in medicine technology uses itelligence expertise with SAP introduction**

### **S.I.M.E.O.N. Medical GmbH goes with it.compact hightronics for further growth**

Bielefeld (Germany), August 12, 2009 – Recent startup company S.I.M.E.O.N. Medical GmbH is setting the course for its growth-oriented future with the industry solution it.compact hightronics from itelligence. S.I.M.E.O.N. Medical, established in 2000, currently has around 70 employees – and steadily increasing sales. Now, the young company has decided on the consulting services of itelligence and SAP technology in order to prepare its IT structures for the future. In this case, it.compact hightronics, the industry solution refined by itelligence for the needs of midmarket companies in the high-tech sector, will be deployed.

Ingolf Diez, Managing Director of S.I.M.E.O.N. Medical GmbH: "it.compact hightronics exactly fulfills our requirements with respect to a flexible and future-oriented ERP system. We can continue to grow and concentrate on our core business; the IT will support us. For us, the quick overview of our business figures is important."

Wolfgang Kröner, Manager of the Midmarket Compact business area of itelligence AG: "With our it.compact hightronics solution, we especially support S.I.M.E.O.N. Medical GmbH in establishing a comprehensive management system with the introduction of a standardized, integrated ERP solution which permits better management and optimization of business processes. Midmarket companies such as S.I.M.E.O.N. benefit particularly from the high degree of flexibility, functionality, project methodology and suitability to the industry that the it.compact hightronics solution provides from the onset.

The itelligence consultants are planning a particularly short introduction time at the medical technology company. By January 1, 2010, all divisions of the company are to actively operate with it.compact hightronics. The solution introduced at S.I.M.E.O.N. Medical GmbH will then connect various departments including Finance, Controlling, Sales, Materials Management and Production Planning and Control and offer production data acquisition integrated within SAP.

**itelligence Press Release**

**Midmarket customer in medicine technology uses itelligence expertise with SAP introduction**

**S.I.M.E.O.N. Medical GmbH focuses on it.compact hightronics for further growth**

it.compact hightronics is part of the SAP compact series based on the current version of SAP Business All-in-One. In this way, it.compact hightronics transfers decades of expertise acquired by SAP and itelligence to midmarket companies by means of the IT processes. This knowledge is further reflected in the conception and design of the already preconfigured software, exactly tailored to the corresponding industries.

**itelligence is one of the leading international full-service providers of solutions in support of SAP solutions, employing about 1,450 highly qualified employees in 17 countries and in five regions (America, Asia, Western Europe, Eastern Europe and Germany/Austria). As a frequently awarded SAP partner itelligence realizes complex projects in the SAP solution-based environment for over 3,000 customers worldwide. In 2006, itelligence obtained gold-level status as an SAP channel partner as part of the SAP PartnerEdge™ program in Germany, and in the U.S. in 2007. The company's services in support of SAP solutions range from consulting and licensing to outsourcing and services to proprietary industry-specific SAP. In 2008, itelligence generated total sales of EUR 216 million.**
