

itelligence extends SAP market presence in the service industry Private railroad company rail4chem selects itelligence as SAP consultants and outsourcing partner

Bielefeld, June 21, 2005 – itelligence AG's consultants are to introduce SAP's my SAP Business Suite as a company-wide ERP system for rail4chem Eisenbahnverkehrsgesellschaft mbH, Essen. rail4chem Eisenbahnverkehrsgesellschaft mbH is a private railroad company that employs around 150 employees in Germany, Switzerland, and the Benelux countries. In 2004, rail4chem generated sales of around EUR 35 million in scheduled and freight traffic.

In the first phase, the mid-market railroad service provider will use components of the SAP mySAP ERP 2004 system for finance and asset accounting, cash management, controlling, and parts of human resource management. The roll-out is also planned for the Netherlands; the intended productive start date for the 16 SAP users using the Oracle database is January 1, 2006.

rail4chem Eisenbahnverkehrsgesellschaft uses itelligence AG's outsourcing offering and has its mySAP Business Suite run from itelligence AG's computer center in Bautzen. The company is thus following the mid-market trend of outsourcing the operation of SAP applications.

Lars Pauschert, ERP application manager, rail4chem: "itelligence provides us with the major benefits of a complete provider, supplying licenses, implementation, hotline support, and outsourcing – all from one source. itelligence's positioning as a competent mid-market provider in the SAP environment, a fact that is backed up by extensive references, is important. We want to use their tight-knit consultancy network in Europe to leverage synergies including in the roll-out in our European branches, and to utilize these as part of our process of planned, rapid company growth."

Heike Hornung, a member of the marketing management team for the service industry at itelligence AG: "The up and coming service industry for private railroad transport requires the utmost precision. The scaleable mySAP Business Suite and our SAP expertise in the area of service providers enables us to provide the basic framework required to be able to deliver this precision across international borders in a quickly growing market."

itelligence AG – press release

itelligence extends SAP market presence in the service industry
