

### **itelligence Focus Day: October 12, 2006 at the Ministry of Economic Affairs in Baden-Württemberg** **SAP versus Baan**

Bielefeld/Stuttgart (Germany), September 28, 2006 – The itelligence Focus Day on October 12, 2006 at the Ministry of Economic Affairs in Baden-Württemberg, Stuttgart is to illustrate under which circumstances a changeover from the corporate software Baan to SAP would be worthwhile. By means of a comprehensive system and function comparison, which is to include examination of the benefits and operating costs, both systems will be contrasted with each other.

In addition, SAP and itelligence will be presenting a special road map in Stuttgart for Baan customers and explaining services, tools, migration paths and weighting models for a secure changeover from Baan to SAP. At the Focus Day, specialists from corporate practice will describe the decision process when switching from Baan to SAP and the effects on project processing, controlling and intercompany settlement. Visitors will also receive practice-oriented information on successful SAP implementation in five months – including the recent integration of production planning and manufacturing control.

SSA Global Inc., to which Baan belonged, was sold in May 2006 by the INFOR Global Solution Group for USD 1.35 billion, thus changing hands for the fourth time. The portfolio of the INFOR Global Solution Group currently includes more than 15 different software systems. In this situation, the question of how future support for the Baan system will develop arises for the users.

The itelligence Focus Day at the Ministry of Economic Affairs in Baden-Württemberg, Stuttgart, which is free to attend, begins on October 12 at 9 a.m. at *Haus der Wirtschaft* and is aimed at decision makers, specialists and managerial staff. For questions and registration, please contact Uwe Scholz, itelligence AG, at +49 (0)221-82 98-24.
