

### **International success for the SAP Global Services Partner**

## **itelligence announces that it is now an SAP Global Services Partner**

Frankfurt, January, 27, 2003 - itelligence AG, Frankfurt, announced today that it is now an SAP Global Services Partner. The new status confirms the close cooperation between itelligence and SAP AG both on a national and international level. Only a select circle of global organizations are considered a SAP Global Services Partner, which includes the development of a business plan based on joint distribution and marketing activities in cooperation with SAP.

itelligence AG has been a local SAP Services Partner since 1993. Last year, the company considerably intensified its partnership with SAP, the leading provider of e-business software solutions. itelligence holds a leading position in the implementation and marketing of SAP® solutions such as mySAP™ Customer Relationship Management (mySAP™ CRM), mySAP Supply Chain Management (mySAP SCM) and mySAP Enterprise Portal. Due to its early integration into the marketing phase of SAP solutions, the company has the high technical know-how required for a fast market penetration. Most recently, itelligence AG's success was more apparent when SAP recognized itelligence AG with the 2002 "SAP Channel Partner Smart Business Solutions" award, which ultimately distinguishes itelligence as one of SAP's top-selling Channel Partners for small and mid-sized businesses.

itelligence's growing national and international customer base from industries such as automotive, mechanical and plant engineering, the high-tech, trade and process sector as well as the metal, wood and furniture confirms the solid industry know-how of this new SAP Global Services Partner.

The large number of new customers in a total of 19 countries furthermore indicates that companies favour international consulting partners such as itelligence. Its new status as a SAP Global Services Partner will further strengthen the company's international orientation. The SAP Global Services Partner status optimizes itelligence's starting position for 2003. Herbert Vogel, Board Chairman of itelligence AG: "Thanks to our new status as a SAP Global Services Partner, we cooperate at a very early stage of the marketing process with SAP in the various countries. This will be to the benefit of both companies and our joint customers."
