

## **SVC AG Schmidt · Vogel Consulting**

- **APCON AG acquires shares in IT-GO! from realTech AG**
- **SVC AG and APCON AG continue to expand their outsourcing business**

Hamburg, June 26, 2000 - APCON AG, Hamburg, and realTech AG have signed an agreement under which APCON will acquire 50% of the shares in IT-GO! GmbH, Walldorf, from realTech AG with effect from June 1, 2000. This means that SVC AG and APCON AG, which merged to form itelligence AG on May 16 now hold 100% of IT-GO!.

The joint venture operated successfully by SVC and realTech since June 1999 was dissolved by mutual agreement in view of realTech's competition with itelligence AG, the company resulting from the merger between SVC and APCON. IT-GO! was established in August 1999 and has been a certified SAP Outsourcing Partner since March 2000. APCON is also a certified partner and operates two computing centres in Dresden and Poznań. Customers include more than 30 companies of the Philips Group, easycash GmbH (Deutsche Bank), LambdaNet Communications GmbH, GeneScan Europe AG and Reemtsma, Poznań.

The companies' outsourcing activities will be pooled in the new itelligence Group under the IT-GO! brand and expanded dynamically.
